RUSSIA RECOGNIZES ESTHONIAN INDEPENDENCE

Other Terms of Peace Agreement Between Soviets and Esthonia Given

(By United Press)
London, Feb. 4.—Soviet Russia agreed to give unreserved recognition of the independence of Esthonia under the terms of the peace agreement reached between the two nations, according to a dispatch from Reval.

The Soviet Russian government also renounces all rights to sovereignty in Esthonia territory, the dispatch said. It outlined the peace agreement as follows:

Both nations renounce any claims to indemnity.

Russia is to pay Esthonia fifteen million rubles in gold and there will be custom charges between the two nations.

Esthonia received a concession to construct a railroad to connect with Moscow line and the Esthonian frontier and permission to purchase 2,500,000 acres of wood land. Russia receives the right to electric power from the Hanoa river.

Fighting Between Japs and Russians Expected Anytime

(By United Press)
Washington, Feb. 4.—Fighting between social revolutionary forces and Japanese troops is expected to break out at any time in the Siberian area between Irkutsk and Vladivostok, according to semi-official advices received here today.

The social revolutionists who are not bolsheviks, have seized Vladivostok and are reported in practical control of all Siberia as far as Irkutsk, a distance of about 500 miles.

Soviet Russia Desires Trade Relations With the United States

By RAYMOND CLAPPER
(United Press Correspondent)
Washington, Feb. 4.—Soviet Russia today asked for opening of trade relations with the United States. The overture was made by L. Martens, soviet representative, in a statement before the senate foreign relations sub committee. Martens promised that an understanding arrived at would be scrupulously observed in his government.

Martens said there already have been negotiations between Soviet Russia and America.

With regard to peace the soviet government stated its willingness to enter a binding agreement of mutual non-interference in international affairs by a conference in Stockholm in 1919, he said. In all 166 provisions have been made by the Soviet government to the United States and allied nations, Martens said.

Armenia Formally Notified of Her Independence

(By United Press)
Paris, Feb. 4.—The Armenian peace delegation was notified officially today that the allies recognize the independence of Armenia. The eventual framing of the new nation will be decided upon later.

General Deniken Arrives in Bulgaria

(By United Press)
London, Feb. 4.—General Deniken, head of the defeated anti-bolshevik armies in southern Russia has arrived at Vaino, Bulgaria, according to a dispatch from Bucharest.

American Minister Assures Jugo Slavs

(By United Press)
Rome, Feb. 4.—The American minister to Belgrade, has assured a crowd of demonstrators there that the Adriatic question will be settled according to Jugo-Slavia's aspirations, it was reported today. The minister spoke after a great demonstration against Italy.

LIEUT. COM. WELLS HAWKS

Lieut. Com. Wells Hawks, who during the war had charge of the photographic division of the bureau of navigation, has been placed on the inactive list.

WON'T SEND LIST OF WAR CRIMINALS

Head of German Peace Delegation Resigns Rather Than Transmit Allies Note and List of Names to be Tried

(By United Press)
Paris, Feb. 4.—Baron Kert Von Lersner, head of the German delegation here, refused today to transmit to Berlin the allied list of persons guilty of war crimes and the accompanying note.

He returned the list and the note to the French foreign office and notified it of his resignation as president of the German peace delegation.

Following Von Lersner's announcement the French foreign office stated it regarded his procedure as a purely personal affair and expressed the belief that it was not the result of instructions from Berlin.

It was further stated at the foreign office that the allies have other means of transmitting the list and the note to Berlin other than through Von Lersner.

Break Relations with Holland Unless the Kaiser is Given Up

(By United Press)
Paris, Feb. 4.—Should Holland persist in refusing to grant the allies' request for the extradition of the former kaiser, one allied power is expected to sever diplomatic relations, according to the Petit Parisien.

Board Called in Germany to Discuss Financial Relations

(By United Press)
Berlin, Feb. 4.—An economy board composed of representatives of agriculture, industry, commerce, banks, transportation and the smaller professions and consumers will be convened shortly to discuss internal and international financial and economic situation it was learned today. Labor, it was said, will not be represented at the conference.

President Takes Outing Despite Hail Storm

(By United Press)
Washington, Feb. 4.—Despite the hail and wind storm, President Wilson sat on the south portico of the White House in his wheel chair today.

Hog Prices Slump

(By United Press)
Chicago, Feb. 4.—A two dollar slump in the hog market unless immediate steps are taken to relieve the foreign exchange situation, was predicted here today by livestock men. Cattle and sheep markets were reported affected only sympathetically. Livestock traders declared, as there is practically no export trade at present. Hogs were off as much as 75c in some grades here today.

TREATY ADOPTION IN TWO WEEKS IS REPUBLICAN PROGRAM

They Are Prepared to Adopt Cloture to Bring it About If it is Necessary

New Plan for Settling Wage Demands

(By United Press)
Washington, Feb. 4.—A new plan of settling their wage demand is expected to be laid before the railroad representatives in another conference with Rail Director Hines today. The conference has been marked by harmony and absence of strike talks, it was said.

The opinion of the employees is that the government will never let the matter get to a strike stage.

Three American Relief Workers Are Murdered

(By United Press)
Washington, Feb. 4.—Three American relief workers have been murdered by brigands in Syria, according to a dispatch received today by the state department.

They were killed last Sunday north of Aleppo.

The identity of the Americans was not reported to the state department. The relief expedition, of which they were a part, was under American commission for the relief in the near east, which had headquarters in New York City. Official notification of the murder was made by General Gouraud, commissioner at Beirut, to the American advisory council which sent the message to the state department.

Three Persons Perish in New York Fire

(By United Press)
New York, Feb. 4.—Mrs. W. Forbes Morgan, Jr., wife of a New York broker, and two daughters, Barbara age 14 and Ellen age 16, perished early today in a fire that partly destroyed the Morgan home.

After firemen had extinguished the fire they found the body of Mrs. Morgan where she had fallen at the top of a flight of stairs trying to escape. In the bath room they found Ellen's body hanging across the edge of the tub. She had been overcome by smoke while trying to escape.

In another room lay the body of Barbara also suffocated.

Must Dispose of It Immediately to Enact Necessary Legislation to Run Government

By L. C. MARTIN
(United Press Staff Correspondent.)

Washington, Feb. 4.—Treaty ratification within two weeks after next Monday, is the plan of republican leaders of the senate.

They are prepared to adopt cloture if necessary to bring it about. Democrats assisting in the passage of an amended cloture rule have promised that there will be no repetition of the long debate that marked the treaty's former course through the senate.

The imperative necessity of passing a certain amount of legislation is the reason. Fourteen appropriation bills must be enacted by June 30. The railroad bill has come from the conferees today. It must be enacted by March 1 when the railroads go back to their owners.

The republican national convention meets in Chicago June 8. Republican leaders are determined that essential legislation shall be cleared away by June 1 and an adjournment of congress taken. From that time they will have their hands full with campaign affairs, it was said.

President Consults Secretary

Washington, Feb. 4.—President Wilson and Secretary Tumulty today had a long talk about the treaty situation, it was learned at the White House. Tumulty, it was understood, gave the president a full report on the outlook in the new treaty fight which will start next Monday when the pact goes into the senate.

New instructions, under President Wilson's suggestion in the senate, may result.

Governor Much Better

(By United Press)
St. Paul, Feb. 4.—The condition of Governor Burnquist was reported better today. The governor passed a good night and rested comfortably. There was much improvement in every way, according to Mrs. Burnquist. Lieut. Gov. Thomas Frankson has a slight attack of influenza.

State Receives Money for Bonus Payments

(By United Press)

St. Paul, Feb. 4.—The state soldier bonus board today received \$727,000 with which it began to pay the bonus. The first big treasury checks will be mailed to several men late today, about four hundred warrants having been signed by the auditor department.

Attorney General Palmer Urges Anti-Sedition Legislation

(By United Press)

Washington, Feb. 4.—Sedition legislation is necessary to combat "a condition of revolutionary intent in the country on the part of both aliens and citizens", Attorney General Palmer today told the House Judiciary committee. Palmer outlined his position on the proposed legislation supporting the Davey bill, and opposing the Sterling and Graham bills which have already been rejected by House leaders. He also answered the argument of those who oppose all sedition legislation, and read extracts from Red pamphlets threatening revolution and murder of public officials.

Italy's Next Move in Balkan Dispute

(By United Press)

London, Feb. 4.—Upon Premier Nitti rests future peace in the Balkans, a high Jugo-Slav official declared in an interview here.

"Jugo-Slavia has submitted her 'last word' in the Adriatic dispute," the official said. "It is Italy's next move," he said.

Denying reports from Italian sources that Jugo-Slavia is mobilizing her armies against Italy, the official said his country does not intend an offensive war in the Balkans, even if the pact of London is enforced, which he considers unlikely. Italian officials on the other hand expect a compromise.

WALTER D. SCOTT

Walter D. Scott of Northwestern university, Evanston, Ill., is president of the Psychologists' association which recently held its convention at Harvard university.

MANY KILLED IN RAILROAD CRASH

When a St. Louis Train on the Iron Mountain and Southern Railroad Ran Into Open Draw Bridge

(By United Press)

Alexandria, La., Feb. 4.—Between ten and twenty persons, all said to be negroes with the exception of two trainmen, were reported killed as a St. Louis, Iron Mountain & Southern passenger train ran through an open draw in the bridge over the Tensas river near Clayton yesterday, according to advices received here today.

The engine, express and mail car, and the negro coach, went through the draw which had been left open for river boats. A heavy fog prevented the engineer from reading the signal.

North Dakota Leads in Farm Loans

(By United Press)

St. Paul, Feb. 4.—North Dakota leads all other states in the number and amount of loans from the Federal land bank of St. Paul, according to a report issued today by E. J. Quam, president.

North Dakota has 5,982 loans amounting to \$19,179,599; Minnesota has 3,704 for \$11,177,399; Wisconsin has 2,678 for \$5,315,400; and Michigan 3,682 for \$5,719,200.

SENSATIONAL SLUMP IN BRITISH MONEY

Pound Sterling Drops in Value 5 1/4 Cents Today—Further Decline Predicted

(By United Press)

New York, Feb. 4.—The greatest single drop that the sterling has taken since the present decline in foreign exchange began, was made today when the British pound opened at \$3.27 1/4 or 5 1/4 cents from yesterday's close.

Bankers predicted that the bottom has not yet been reached in the slump of foreign money in exchange for the American dollar and further declines today were expected.

Bankers Ridicule Charges

Chicago, Feb. 4.—Charges by British financiers carried in dispatches that American money must not deliberately cause depreciation of the British pound, were ridiculed by bankers here today.

Due to Extravagance

Washington, Feb. 4.—Decline in foreign exchange on New York markets today is logical development of the extravagance being indulged in by people of Europe and America, according to government financial experts here today.

Sterling reached the new low level of \$3.20 at 12:30 today. There is nothing alarming in the situation for the United States they believe. The decline may have a good effect by forcing the nation to get back to the normal trade basis. Both nations must get to work and increase production, the experts said.

Decline Threatens Exchange

Washington, Feb. 4.—Destruction of American export trade is threatened by the decline in foreign exchange, Senator Thomas of Colorado, declared in the senate today. He said he will call up his resolution next week creating a commission to stabilize exchange.

Trial of Socialists Will Soon End

HAROLD JACOB,
(United Press Staff Correspondent)

Albany, N. Y., Feb. 4.—It seemed a likelihood today that the hearing of five suspended socialist assemblymen will be brought to an early close through the action of the judiciary committee. Members hoping to continue the hearing apparently have abandoned hope that procedure will be dropped short of a completed hearing. It is believed certain the judiciary committee will return a majority and minority report. On these reports the assembly must act before placing final judgment in the case. Counsel for the committee let it be understood today that special evidence introduced yesterday in opposition to the five socialists was to be followed today by testimony even stronger than that offered yesterday by Miss Ellen Chivers, 17, who testified that she saw one of the defense step on an American flag.

Peter W. Collins, former labor organizer of Boston, was expected to resume the stand for cross examination.

Suspects Held For Murder of Labor Leader

(By United Press)

Chicago, Feb. 4.—Michael Carozzo, president of the Street Cleaners union, and five other suspects, were held by police here in connection with the murder of Maurice Enright, labor leader and union man, late yesterday. Tim Murphy, labor leader, was arrested but established an alibi.

Dempsey Not a Slacker Says Wife

(By United Press)

San Francisco, Feb. 4.—Maxine Dempsey, former wife of Jack Dempsey, today gave federal authorities here an affidavit withdrawing her charge of slackism against the champion.

The affidavit said she voluntarily signed Jack's dependency claim and that he had made bonafide efforts to enlist during the war.

Chicago's Future Dictators of Finance and Fashions at Howard Gillett's Birthday Party

Chicago's future dictators of finance and fashions romped and played and had their pictures taken when they attended a party given at the Casino Club, Chicago, to celebrate Howard Gillett's eighth birthday. In this

unusual group, from left to right, top row are: Nathan Swift, Dan Cameron, Conover Talbot, Charles G. King, Katherine O'Connor, Gray Mason, Joseph Ryerson, Elias Babcock, John Dunblane and Ben Leslie Bahr. Second

row: John Amberg, Walter Watson, George Ranney, Hugh Johnston, Bruce Babcock, Florence Ott, August Brown, Jr., Jeanette Elliott, Betty Johnson, and Billy Cramin. Third row: Lydia Swift, Elizabeth Dickinson, Phillip Nassen, Billy Cudahy, Howard Gillette, Dorothy Deween, Jane Fortune and Beatrice Kirk. Bottom row: Theodore Venard, Otto Sprague, Michael Cudahy, John Peters, Theurer, Winfield Surbin, Marjorie Brewer, Rosemary Baur and Elsie Armour.

WOMAN'S REALM

CLASS PLAY OF
SENIOR CLASS

To be Given at the New Park Theatre on Tuesday Evening, Feb. 10—Synopsis

"LET'S GET MARRIED," TITLE
Cast of the Play Given—To be Followed by Operetta "Florinda"
—Orchestra Plays

(In Order of Their Appearance)

Mrs. William Stewart Gladys Trommald
Mary, her maid Olga Krueger
Phyllis Godard, her niece Kathleen Gemmell
Gerald Stewart, her son James Mahlum
Elizabeth Stewart, her daughter Alice Johnstone
Cyril Edwards "Squirmy," Gerald's chum John Gemmell
Angeline Burwood, Elizabeth's chum Marie Gabiou
Jack Ring, Elizabeth's fiance Albert Buscher

(Business Manager, George Peterson)

Time—An April evening.
Place—The living room at the Stewart home.
ACT I—The college students come to the Stewart house party for the Easter vacation. The "Let's Get Married" epidemic strikes the household. Phyllis decides to "vamp" the millionaire's son.
ACT II—All does not run as smoothly as our romantic heroes and heroines imagined it would. Mary gets excited and sees things. Poor Cyril tries to wiggle out of an embarrassing situation by stretching the truth.
ACT III—In which our elopements develop some more. More and more tangled gets the plot, more and more excited gets Mary and Mrs. Stewart, and swiftly does fate intervene and settles the destinies of the lovers. We end with a telephone message and confidences before the fireplace.

The personnel of "Florinda," an operetta in one act, by Eduardo Marzoz, directed by Lydia M. Nelson, is as follows:

CHARACTERS

Florinda, a little princess Alice R. Johnson
Fortunia, Fairy Queen Beatrice Peters
Vala, Queen of the Witches Jennie Keller
Yorifinal, brother of Florinda Lois Chadbourne
First Witch Irene Turcotte
Second Witch Dora Greer
First Fairy Tena Backen
Second Fairy Lucille Nolan

CHORUS OF WITCHES—Ruth Anderson, Marie Beck, Myrle Downie, Lillian Engbreitson, Mardelle Eschmann, Alma Evensta, Cecilia Furst, Nora Hegsted, Alice Herman, Helen McCaffrey, Emily Mraz, Florence Newman.

CHORUS OF FAIRIES—Virginia Casey, Inga Evensta, Theresa Emilson, Dorothy Fisher, Beatrice Guinn, Alice G. Johnson, Mabel Johnson, Violet Jorgenson, Doris Kuehmichel, Anna McGivern, Helen Mraz, Flora Montgomery, Violet Murray.

(Accompanist, Joseph Graham)

ORCHESTRA

First Violins—Second Violins—
Lester Bredenberg—Kaleb Anderson
Georgia Drexler—Kenneth Brackner
Irene Evans—Leslie Gifford
Irene Quinn—Lloyd Jones
Loneta Hayes—Ruth McCall
Geraldine Kiebler—Gordon McPherson
Cecile Morrison—Gifford Peterson
Mauritz Nelson—Corno—
Grace McCall—Harold McCall
Trombone—Drums—
Ralph Peterson—LeRoy Putz.
(Accompanist, Ione Rowley)

Mission Society

The Women's Home and Foreign Missionary society of the Methodist church, which meets Thursday afternoon in the church parlors at 3 o'clock sharp, will give a program consisting of a review of the first two chapters of the study of "A Crusade of Compassion for the Healing of the Nations." The regular business meeting and the "Mystery Box" is found in January Home Missions. All ladies are welcome.

Swedish Baptist Choir

The choir of the Swedish Baptist church will meet this evening for rehearsal at 7:30 o'clock sharp, at the home of Alfred Anderson, 1013 13th St. S. E.

Better Start It.

Under scientific and machine operation it is said the annual yield of the American farm could amount to 2,000,000,000 bushels of wheat and 5,000,000,000 bushels of corn.

Physician Explains Who Should Take
Nuxated Iron

Practical Advice on How to Help Build Up
Great Strength, Energy and Endurance.

Commenting on the use of Nuxated Iron as a tonic, strength and blood builder by over three million people annually, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out-door Dept.), New York, and the Westchester County Hospital, said: "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life."

It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real and true cause of their trouble. With-out iron in your blood your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind.

For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all "run down," while at 50 or 60 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy.

Manufacturers' Note—Nuxated Iron, which is used by Dr. Sullivan and others with such surprising results, and which is prescribed and recommended above by physicians, is not a secret remedy, but one which is well known to druggists everywhere. Unlike the oldest iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

REPORT ON THE
CITY SCHOOLS

State Examinations in Grade Subjects to be Held This Year on
March 18 and 19

THE WEST BRAINERD SCHOOL

To Open Soon, Parents Reminded that the School is For Lower Grades of Children Only
BY W. C. COBB,
(Supt. of City Schools)

The state examinations in grade subjects will be held this year on March 18 and 19, and it is hoped that students who failed to complete their credits for high school entrance last spring, will make every effort to clear up their record at this examination. This March examination will be of special interest and importance to conditioned Freshmen in the high school, to ninth and advanced eighth grade pupils. Only those papers receiving a mark of 75 per cent or better are sent to the state at this time and all upper grade students are expected to apply themselves with especial diligence preparatory to this examination. Parents should be insistent that study hours of pupils in these upper grades be properly observed at home.

It is expected that the new school at West Brainerd will be ready for occupancy very shortly. The announcement will be made to the children in the Lincoln school when the time arrives. Parents in West Brainerd are reminded that the school is for lower grade children only, as state regulations govern the number of grades and classes, to some extent, that may be cared for in a one room school.

Washington's birthday will be observed in an appropriate manner in all of the schools this year, as in the past. It is hoped that the public, generally, will make an effort to attend the exercises in the several schools at the time which will be announced later. It is hoped and expected that the several patriotic organizations will be well represented and a special initiation is extended to all of them to attend and join with the schools in making of this holiday a memorable one from the standpoint of good American patriotism. As practically all of the enlisted boys are now returned, which was not the case a year ago, we hope that a goodly number will try to be present at these exercises.

The prevalence of a smallpox epidemic in towns north, east and west of Brainerd calls to our attention that general free vaccination in the Brainerd schools last year and this year has probably saved us a great deal of inconvenience and expense by preventing a similar epidemic in this city. The schools expect to offer free vaccination again before the spring vacation.

The normal training department will start a primary practice class before many weeks. Parents must remember in connection with these practice classes that they are not entirely subject to local control as to their size, the number of classes, and the date of opening. As the state pays the entire expense of the normal training department, the state normal inspector gives the direction for the conduct of such classes and local schools must govern themselves accordingly. It might be well in this connection to remind parents that these classes are not kindergarten classes at all but are practice classes in beginning primary work and for pupils who have reached the regular school age. Detailed announcement will be published later concerning the above classes.

Consolidated report of all buildings for January, 1929:

Enrolled, 892 boys, 973 girls, total 1862; new enrollment for month, 37; per cent of attendance, 94; grades, 97% H. S.; days lost by teachers, 25; number teachers' meetings, 1; number fire drills, 5; truancy reported, 8; cases of corporal punishment, 1; books drawn from libraries, 772.

Report by buildings.
Whittier—Louise Barrett, principal; 114 boys, 86 girls, total 200; per cent attendance, 95.7; tardiness, 11.

Harrison—Fleda Canniff, principal; 161 boys, 139 girls, total 291; per cent attendance, 95.5; tardiness, 30.

Washington—118 boys, 128 girls, total 246; per cent attendance, 94.6; tardiness, 16.

Lincoln—Elise Roystad, principal; 155 boys, 165 girls, total 320; per cent attendance, 94.3; tardiness, 27.

Lowell—R. M. Williams, principal; 231 boys, 248 girls, total 479; per cent attendance, 91.8; tardiness, 37.

High School—M. B. Scherich, principal; 108 boys, 315 girls, total 323; per cent attendance, 97.2; tardiness, 18.

* H. C. Frick's Widow and *
* Daughter, Who Receives *
* Greater Part of Estate *

Unpublished features of the will of Henry Clay Frick revealed that Helen Clay Frick, his only daughter, received bequests totaling more than \$22,000,000, while the widow, Adelaide H. C. Frick, received \$6,000,000. A rumor has been prevalent in Pittsburgh that the widow may contest the will and elect to take her widow's dower, which under the Pennsylvania state law would give her one-third of her husband's estate, estimated to be worth \$200,000,000.

FORTY IDEAL AGE FOR WOMEN

English Artist Sweeps Away Time-Honored Ideas Having to Do With Spinsterhood.

There is a flurry among English spinsters. A prominent artist has come to the conclusion that a girl of forty should be man's ideal. He sweeps away all the time-honored rubbish about spinsters at the age of forty being mostly interested in cats and canaries. Here is what he has to say about the new old girl.

"The ideal age for a woman from the viewpoint of the man who studies the sex as an artist is forty years." The woman of forty is at the perfection of her beauty and has attained a settled mentality which she did not possess as a girl in her teens, or as a young woman in her twenties and thirties. At forty she is an ideal companion, pleasantly matured, tolerant and understanding. Only the ignoramus in life find joy in the society of young girls or undeveloped women."

During the war and since many women of the so-called "sweet-and-forty" age got married, a considerable number of them widows. This has led to frequent lamentations by younger women that, with the huge number of unmarried beauties about, it is unpatriotic for Cupid to show such favoritism for widows and spinsters.

Confidence

For run-down conditions—we always recommend

NYAL TONIC

The benefits which many of our customer-users have derived convince us of the superior merit of this splendid prescription. It's good for anaemic children—ailing women and run-down men. It tones up the entire system. One large dollar bottle will bring big benefits.

JEWELRY OF CHINESE JADE

Season's Vogue for Green Tints Brings Costly Decorative Articles Into the Limelight.

One of the things which the season's vogue for green tints in women's garments has done is to bring into unprecedented popularity various articles of jewelry made of real Chinese jade. The articles in demand range from tiny earrings to necklaces so high in price as to surprise even persons who think they know a good deal about costly gems. It is a matter of record that small necklaces of jade beads, every one measuring less than a quarter of an inch in diameter, have been sold in China at from \$1,000 to \$3,000 each. Naturally, the values of these necklaces are enhanced when they are brought to this country and resold.

New Veil Fastener.

A smart veil shown in one of the exclusive hat shop windows was made of heavy black mesh with a ribbon of leather fastened at a point that would come right below the chin in the front. This ribbon extended on either side and was provided with a snap so that when it was down around the neck it would fasten securely in the back collarwise, leaving the veil itself snugly gathered in about the lower part of the face.

At Lunch Time.

The struggle to make both ends meet often results in an empty mid-die.—Boston Transcript.

Children Like It

"You know it is not an easy matter to get children to take medicine, and forcing it on them does no good. Most mothers know that a cough medicine, while palatable, should contain no drug injurious to the child."

The great popularity of Chamberlain's Cough Remedy is explained by the fact that it contains no opium or narcotic of any kind, and at the same time is so pleasant and agreeable to the taste that children like

Chamberlain's Cough Remedy

For this reason alone it is a favorite with the mothers of young children."

Yours for Health—Granny Chamberlain.

ICY PAVEMENTS

Icy pavements in the city should be sanded so as to make them safe for pedestrians. The thaws of recent dates have made the pavements full of glare ice and exceedingly dangerous following a light fall of snow, when the latter conceal pitfalls.

Steps of buildings should also be guarded against in the same manner as walks. Salt thrown on icy places will aid materially in reducing glare surfaces.

Nickels in London.

A letter in the Times of London points out the advantages England should gain by substituting nickel coins for bronze. To one who has merely visited Switzerland, this proposition requires little argument. In weight, bulk and convenience nickel is unquestionably preferable. With what ease can Swiss 20-centing pieces to the value of, say, 2 shillings, be carried, as compared with 2 shillings' worth of "copper"? And how this reform would lighten the bus conductor's burden! The combined weight of the 20-centime, 10-centime and 5-centime Swiss nickels is, writes the Times correspondent, only 137 grains, against the 515 grains, which 3½ pence weigh. Apropos of this subject, the London chamber of commerce has decided to recommend that the government prepare for issue, when required to supplement the silver currency, nickel coins of the value, say, of sixpence, a shilling and half a crown.—Christian Science Monitor.

Imports of Precious Stones.

The value of the precious stones imported into the United States in the fiscal year that ended recently was greater than it had been in any previous year. Pearls are growing more popular, but because the war interfered with the fisheries they have become so scarce that dealers cannot supply the demand. The South Africa diamond producers are taking advantage of the favorable market to unload the diamonds that they have been accumulating during the war. According to the National City bank of New York half the diamonds in the world are already owned in the United States.—Youth's Companion.

Thaws Frozen Coal.

For thawing coal frozen in steel cars a kerosene burner that can be placed directly under a car has been invented.

NEW SECRETARY OF THE N. M. D. A.

M. N. Koll, Former President, Named Secretary Northern Minnesota Development Association

SUCCEEDS FRED T. LINCOLN

E. E. McDonald of Bemidji is Named President of Association, R. R. Wise a Director

The executive committee of the Northern Minnesota Development association met at the Commercial club rooms in Duluth Monday afternoon with the following members present: M. N. Koll, Cass Lake; A. P. Sullivan, Hibbing; Geo. W. Empey, Hinckley; L. W. Huntley, Grand Rapids; Oscar Barnes, Bagley (W. I. Prince, proxy).

E. E. McDonald of Bemidji is in California and R. R. Wise of Brainerd were unable to be present.

The resignation of Secretary Fred T. Lincoln of Brainerd, submitted on account of his leaving the state to go to Montana, to accept a similar position, was read and resolutions expressing regret at his leaving the state, adopted.

The executive committee after discussion appointed M. N. Koll of Cass Lake to fill the vacancy caused by Mr. Lincoln's resignation.

Mr. Koll's appointment as secretary necessitated his resignation from the presidency and consequently the reorganization of the entire executive committee. When the reorganization was completed the following list constituted the officers and executive committee of the association for the balance of the year:

President—E. E. McDonald, Bemidji.

Vice-President—A. P. Sullivan, Hibbing.

Secretary—M. N. Koll, Cass Lake.

Treasurer—George Munford, Two Harbors.

Executive Committee—R. R. Wise, Brainerd; Geo. W. Empey, Hinckley; L. W. Huntley, Grand Rapids; W. I. Prince, Duluth; Oscar Barnes, Bagley.

The salary of the secretary was fixed at \$75.00 per month. He is an appointee of the executive committee the salary being the same as paid Mr. Lincoln.

It was moved and unanimously carried that the activities of the N. M. D. A. for the coming year be devoted to accomplishing the following program:

No. 1—Passage of proposed amendment No. 1 known as Babcock plan for state highway improvement.

No. 2—Fair taxation.

No. 3—Accomplishment of a soil survey for Minnesota.

No. 4—Grazing, agriculture and tourist travel development.

It was declared to be the policy of the executive committee that men of national and state wide reputation be secured insofar as practicable to address the summer meeting of the N. M. D. A. at Bemidji in June on the foregoing topics.

The date for the summer meeting at Bemidji was left with the secretary to arrange with the Bemidji Civic and Commerce association so as not to conflict with other conventions.

One Result of Winter

Life indoors with lack of exercise and heavy food is apt to throw the digestive organs out of order. Foley Cathartic Tablets are a wholesome physic that thoroughly cleanse the bowels without griping or nausea. PAY OF TEACHER IS VERY SMALL

QUESTIONNAIRE REVEALS CONDITIONS IN ALL PARTS OF THE UNITED STATES.

SALARIES ARE INADEQUATE

Average in Elementary Schools Is Only \$856 a Year—Comparison With Wages Paid to Workers Not Highly Trained.

By JAMES P. HORNADAY.

Washington.—The National Education association, co-operating with the federal bureau of education, has, through a questionnaire, obtained additional information with respect to the shortage of schoolteachers and the inadequacy of teachers' salaries.

Through blanks sent to county and city superintendents in various places and sections of the country information was sought relative to the number of teachers leaving during the school year 1918-1919, schedules of salaries in operation, standards of preparation set, and cost of living. At the same time a blank was sent to individual teachers to secure information in greater detail on the same items. Four hundred and twenty-three city superintendents, representing all parts of the country, sent in replies, while filled-in blanks were received from 15,000 individual teachers.

The returns show that for the school year of 1918-1919, the average salary for the country for elementary teachers was \$836; for intermediate teachers, \$951, and for high school teachers, \$1,224. The annual average salary for all teachers was \$917. According to a geographical grouping made, the lowest salaries are paid in the Southern states, while the cities of the extreme West pay the highest salaries. The minimum salary in 88 per cent of the cities reporting is below \$800, and the maximum salary is below that amount in 37 per cent of the cities reporting.

Inadequacy of Salaries Shown.

The inadequacy of the salaries paid is revealed in the showing that 66 per cent of the teachers resigning during the period under consideration received less than the medium salaries for their respective groups. The questionnaire brought out the information that only one teacher in five has any additional income and for this one-fifth the medium amount is less than \$100. It was also shown that 46 per cent of the elementary teachers, 43 per cent of the intermediate and 42 per cent of the high-school teachers have other persons dependent on them for support, either wholly or in part, and that individual teachers support more dependents in large cities than in small towns.

Much stress is laid on the showing that men and women in lines of work that do not require any particular training are much better paid than teachers. For instance, a comparison is made between the salaries paid teachers and the wages paid bakers and others in the cities of Cleveland and Chicago. It is shown that in each of these cities a head baker receives \$300 more a year than an elementary schoolteacher of the same district; blacksmiths \$890 more a year, and machinists \$1,338 more a year.

A comparison of teachers' salaries with incomes of other professions in the business world reveals like discrepancies. The report finds that a teacher's chance of securing an income of \$3,000 or over would be one and a half times greater on the stage, three times greater in the clergy, nine times greater in storekeeping, commercial traveling or the real estate business, and from 14 to 20 times greater in medicine, military service and insurance.

Getting More in Some States.

Due to continual agitation during the last two or three years, some of the states and cities have increased teachers' wages, and others are now taking up the subject. Virginia, for instance, has recently increased its appropriation for teachers' salaries by \$800,000, most of this money to go to the rural schoolteachers. Texas has appropriated \$2,000,000 for 1919-20 and an equal amount for 1920-21, to provide better salaries and longer terms in its rural schools. That state has also made provision for equal pay for men and women. In South Carolina the minimum salary for high school teachers has been increased from \$55 to \$75 a month, a gain of about 36 per cent. Oregon has placed its minimum for any public school teachers at \$75. In Indiana the salaries of four classes of teachers have been increased from 25 to 30 per cent, according to class. The New York law, the most important salary law passed recently, provides that "all cities in the state of the first and second class shall pay minimum salaries of \$800 for elementary teachers and shall provide at least eight annual increments."

The federal bureau of education points out that states are, almost without exception, slow in enacting legislation for the relief of the rural schools which, after all, are most in need of financial help. The bureau says that until the rural schools are able to compete successfully with those in larger towns and cities, they must continue to attract only such teachers as are poorly trained.

Don't Neglect the Little Ones.

Mrs. J. S. Pison, 376 E. 156th St., Cleveland, O., writes: "I can't speak too highly of Foley's Honey and Tar. When my little girl has a cold I give her Foley's Honey and Tar and that stops her coughing in a little while. Children like it. It contains no opiates. It is healing, soothing, prompt in action. H. P. Dunn."

Immortal "Mermaid."

She was a "famous woman," because she was a "famous" inn that served "famous" men. That was enough for the Mermaid. She was named after an enchanting lady of the vasty deep, who is a woman to her girdle and a fish to her feet. Her figure was on the signboard of the famous inn, in Friday street, London. Pass with hasty glance the bar in front—the parlor behind of the blackened roof and polished tables—tap-room on the left—low doorways, winding passages—and you have come to the inn parlor. This is the Mermaid! And the men sitting there? Ben Jonson, Fletcher, Beaumont, Carew, Donne and—Shakespeare. Shakespeare is roaring over his dog's nose, and Ben Jonson over his canary. Oh, listen to the wit-combats between Shakespeare and Ben Jonson! Mermaid, dear "famous woman," why were you not a twin?

Varying Colors of Diamonds.

Each of the five mines owned and worked by the great De Beers company in the Kimberley district produces diamonds with well-marked characteristics. The rich Kimberley mine yields a good percentage of white and many yellow stones. Dutoitspan mine is famed for its large yellow diamonds. At Bultfontein small white and spotted stones are common. From the Wesselton mine come many beautiful deep orange colored diamonds, while the De Beers mine shows a good percentage of tinted yellow and brown stones. The Premier mine (Transvaal) yields a large number of "off-colored" stones. The Cullinan diamond was of exceptional purity. From the Jagersfontein mine in the Orange Free State the famous bluish-white stones are derived. The diamonds found in German Southwest Africa are small and yellowish in color.

FORD

The Universal Car

Only a Limited Number of Ford Cars

There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars—just a specified limited number—allocated to this territory. Those who buy their cars now will be wise. They will have them to use whenever they wish.

Don't put it off—next spring, even next month, is an uncertainty. We cannot take orders for spring delivery. Even now, we must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. Get your name on an order. It is your protection.

Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So, it's first come, first served. Spring, summer, autumn and winter are all the same to the Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. You won't have to store it. You can use it. Buy now while the buying is possible.

SENIOR CLASS PLAY AND OPERETTA

Tickets for the senior play which
have been on sale by the members of
the senior class may be reserved and
exchanged for reserved seat coupons
at the box office of the New Park
theatre after 8 o'clock a. m. Friday,
February 6.

Arrangements have been made
with the management of the theatre
that no seats will be reserved before
the time appointed, 8 a. m. Friday,
for any persons whomsoever and it
will be a bona-fide proposition of
"first come first served" as parties ap-
ply at the box office window.

In reserving seats on Friday morn-
ing, it will be necessary to present
a student's ticket for exchange, as
the box office will not sell reserva-
tions for cash at this time. A class
representative, however, will be on
hand about the lobby to sell student's
tickets to parties who may not be
supplied with the same.

The class play itself will be given
on Tuesday, February 10th, and the
above notice relates only to the mat-
ter of reserving seats, as there is al-
ways a big opening rush for reserve
seats.

Seats may be reserved at any time
after Friday when the box office
is open, but the choice seats will
naturally be taken very quickly on
Friday morning.

Hint to Reformers.

Doubtless the world is wicked
enough, but it will not be improved by
the extension of a spirit which self-
righteously sees more to reform out-
side of itself than in itself.—J. G. Hol-
brood.

"You must appear
naturally graceful"

No longer is the obviously corseted figure smart; the corset
must not be evident in the finished silhouette. Not easy
to attain unless you place yourself in the hands of a cor-
setiere with a thorough understanding of this elusive mode.

From the matron of larger proportions to the girl of slender
figure,

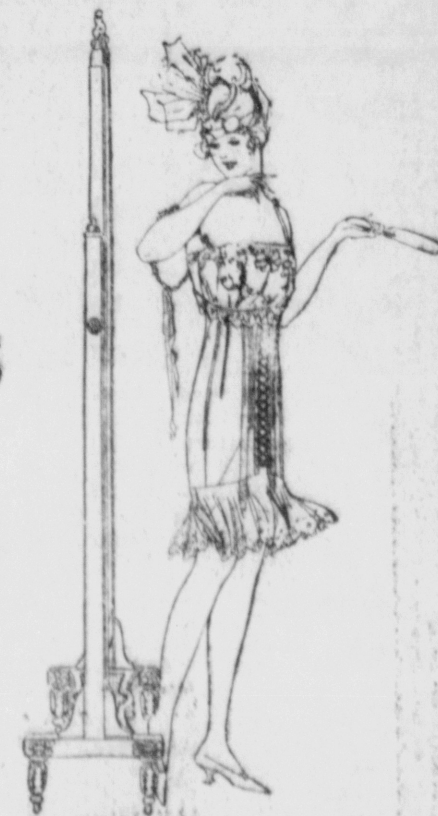

GOSSARD CORSETS

The Original-Unequaled Front Lacing Corsets

will give ideal proportions without any feeling of restraint,
and the most critical observer will not be able to trace your
gracefulness and charm to the skill of Gossard artistry.

Our stock is complete, and you can buy a genuine Gossard
for as little as \$2.75 up to any price you desire to pay.

You may be assured that our specialized corset service has
anticipated your every need.

Equip Your Small Car With Goodyear Tires

If you own a Ford, Chevrolet, Dort, Maxwell
or any other car using 30x3-, 30x3 1/2-, or 31x4-
inch tires, you can well take advantage of
the high relative value built into all Good-
year Tires.

You can well do so because you can secure
in the small Goodyear Tires the results of
such skill and care as have made Goodyear
Tires the preferred equipment on the high-
est-priced automobiles of the day.

You can well do so because these small Good-
year Tires are easy to obtain, being produced
at the rate of 20,000 a day, and because
their first cost usually is as low or lower than
that of other tires in the same types and sizes.

Go to the nearest Goodyear Service Station
Dealer for these tires, and for Goodyear
Heavy Tourist Tubes. He supplies many
other local owners of small cars.

30x 3 1/2 Goodyear Double-Cure \$20.00
Fabric, All-Weather Tread

30x 3 1/2 Goodyear Single-Cure \$17.50
Fabric, Anti-Skid Tread

Goodyear Heavy Tourist Tubes are thick, strong tubes that
reinforce casings properly. Why risk a good casing with a
cheap tube? Goodyear Heavy Tourist Tubes cost little more
than tubes of less merit. 30x 3 1/2 size in water-
proof bag \$3.90

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Liniment

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 20 cent bottle of old, honest "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

FOR SALE—Continued

FOR SALE—Good eight room house. Inquire 815 S. 7th St. 8041-20412
FOR SALE—Jersey cow, coming fresh middle of April. Mrs. W. B. Dingman, near Lum Park.

Pretty Italian Fashion.

In the old palaces in Italian cities, small cupboards flush with the wall are a familiar feature, and these are made more attractive sometimes by the addition of paintings placed on the inner side of the doors. Thus, when these are opened, not only is the inside of the cupboard and its contents displayed to view, but little paintings may appear, providing an unexpected and welcome piece of decoration. A lily or some such flower, standing in a simple vase of a good design, looks charming. Modern decorators may, perhaps, see their way to making use of this pretty fashion.

Are You Losing "Pep"?

Do you feel tired all the time? Does your back ache? Do you feel that you are not so spry as you used to be? Foley Kidney Pills tone up and invigorate the kidneys, banish backache, rid the blood of poisons. Rev. W. F. M. Swindole, Macon, Ga., writes: "I am ready at any time to speak a word for Foley Kidney Pills." H. P. Dunn, mwf

The Pocket Handkerchief.

The pocket handkerchief was first known as "kerchief"—couvre-chef—a covering for the head; then it became handkerchief, a covering for the head carried in the hand, and at last pocket handkerchief, a covering for the head held in the hand and kept in the pocket.

Catarrhal Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. Catarrh Medicine.

You Can't Be Too Careful

Elsie O'Brien, R. F. D. 7, Vincennes, Ind., writes: "One bottle of Foley's Honey and Tar broke up my cold right away." It relieves coughs, colds, croup and whooping cough; clears the passages, soothes irritated membranes and stops tickling in the throat. Foley's is the original and genuine Honey and Tar. H. P. Dunn.

GREATEST YEAR FOR THE FARMER

AGRICULTURAL PRODUCTS FOR 1919 ARE ESTIMATED AT ABOUT \$25,000,000,000.

ONE RESULT OF WORLD WAR

Corn Was the Most Valuable Single Crop, With Cotton Next—Production and Prices Will Be Maintained, Is Prediction.

By JAMES P. HORNADAY.

Washington.—The farms of the United States yielded approximately \$25,000,000,000 in the calendar year 1919. It was the greatest year in the history of American agriculture. The value of the yield for the year was three times greater than that of ten years ago. The agricultural department believes the splendid showing may be traced directly to the awakening that came to the farmers of the country during the world war. As a result of the demand for increased production, a demand that reached every farm home in the land, there was a great gain in production in 1917, another gain in 1918 and then last year still another gain that took the agriculturist of the country over the top, so to speak.

In the total value of the crops of the country in 1919, \$16,025,000,000, includes items and groups of items that each exceed \$1,000,000,000. The most valuable single crop was corn. On the basis of \$1.35 a bushel the corn yield of the year is worth \$3,934,000,000. This is a sum in excess of the value of all crops produced in the United States prior to 1904. Of course the larger part of the corn crop is still unmarketed, but the government's statisticians believe that the value they have placed on it is a fair one.

The cotton crop was low in quantity, but it commanded a good price and ranked next to corn in total value, \$2,235,000,000, which includes the value placed on both lint and seed. Hay was the third most valuable crop of the year. According to the government's statistics, the 100,000,000 tons grown have a total value of \$2,129,000,000. In reaching this total, it is pointed out, no account is taken of the value of pasturage, the total of which might properly be reckoned at two billion at least.

Wheat Takes Fourth Place.

Wheat ranked fourth in point of value. The total production is figured by the government at 941,000,000 bushels, which, valued at \$2.15 a bushel, was worth \$2,024,000,000. All other cereals combined are valued by the statisticians at \$7,474,000,000, which is more than the total annual value of all farm crops prior to 1916. The vegetable total, including potatoes and sweet potatoes, is \$1,479,000,000; the fruit total, \$730,000,000; seeds total, \$261,000,000, including beans and peanuts; sugar producing crops, \$147,000,000. The total value of animal products for the year is estimated at \$8,957,000,000; dairy products, \$2,789,000,000; poultry products, \$1,359,000,000, and wool clip, \$160,000,000.

The farmers of the United States have shown the world what they can do and what they will do when there is a proper incentive for them to do it. They have demonstrated their ability to feed most of the world, if the world will pay a reasonable price for the food. The best informed men connected with the agricultural department believe that the record for production that has been set can be and will be maintained; they believe that for many years to come the farmers of the United States will have to provide food for the millions of Europeans and this, considered in connection with the known fact that the population in the United States will continue to increase rapidly, means, they say, that there is no reason why there should be any falling off in farm products.

Prices Will Stay Up.

It is generally assumed that the high prices of the war cannot be maintained permanently, but the best of the experts are of the opinion that prices for farm products will probably never go back to where they were before the war. It is settled that the government will take its hands off of wheat when this year's crop shall have been disposed of, and this will mean that the law of supply and demand will operate without interference. According to the federal wheat corporation the 1919 wheat crop under government control netted the farmers of the country an average of \$2.15 a bushel. Farmers' organizations have represented to congress that had the government kept hands off they could have done better with their wheat, and apparently the general sentiment among wheat growers is that the foreign demand for wheat will keep the price up for some time to come.

The farmers of the country in their representations to congress have made it very clear that they have not had any undue advantage during the era of war prices. To the contrary, they have shown that, while they have received good prices for most of the products, they have been compelled to pay exceedingly high prices for everything they have had to purchase, and in the end have not been the gainers to any great extent as a result of the war inflation. The farmers form the one great class that troubles congress but little. It is only during the last year that they have been represented here at the capital by a legislative committee.

HERBERT PUTNAM

Herbert Putnam, librarian of congress, who has declined the Distinguished Service Medal awarded him by the war department. Putnam was chairman of the American Library association which undertook the distribution of books and other reading matter among soldiers in domestic and overseas service.

SLEPT AMONG THE DEPARTED

Travelers in Auto Unknowingly Selected Peculiar Place in Which to Pass the Night.

They lived in Milwaukee and "flipped" through to Indianapolis with their two children. They left home early in the morning, arriving at Gary just before dark. Anxious to reach their destination as soon as possible, they left Gary after getting a supply of gasoline.

A few miles out of Gary a heavy rainstorm checked their progress and shrouded the countryside in pitch darkness. Losing their way they decided to turn in at the first gate and spend the rest of the night in the automobile, rather than take chances of traveling by night in the darkness on unknown roads.

A few miles further on the outline of a tree just beyond an open gate was seen, and the auto was guided beneath. The couple and children slept in cramped quarters in the auto and awakened at daybreak next morning.

Imagine their horror when they discovered they had slept all night in their auto in a cemetery.—Indianapolis News.

"Cakes and Beer, and Washing Here"

Before a ramshackle house in a little New England village there used to hang this sign:

"Hiram, the widow's son, I hope
"Can furnish customers with soap,
"Such as will make the washing day
"Pass off as pleasant, e'en as May.
"Cakes, and beer, and washing here."

Hiram had the right idea. He knew that there were people who wanted what he had to sell. The difference between Hiram and the modern advertiser is that the former had to trust to somebody passing to see his sign. He could not bring his sign to everybody.

The modern advertiser with something to sell that he feels you want, saves you the trouble of going to his place to see about it. Readers of advertisements visit all the advertisers at a single sitting.

This is a service that those who advertise are rendering you, just as the clerks they hire, the deliveries they make, are service. They are saving your time, energy and money by bringing their establishments to you through the advertisements.

Read the advertisements with this thought in mind.
